

Future-Proofing Accountancy: Building Resilience for Tomorrow

The accountancy profession is changing faster than ever. Advances in AI, evolving client expectations, talent shortages and the shift towards higher-value advisory services are reshaping the future of independent firms.

Join us for an engaging and interactive conference designed to help firm leaders and future leaders navigate these changes with confidence. Hear from industry experts, technology specialists and fellow practitioners as they share practical insights, real-life experiences and innovative strategies for sustainable growth.

Through thought-provoking keynote sessions, panel discussions, workshops and collaborative roundtables, we'll explore how firms can embrace new opportunities, strengthen resilience and build a successful future.

Whether you are looking to future-proof your firm, develop your people or discover new ways to add value to clients, this conference offers the opportunity to learn, collaborate and connect with like-minded professionals.

Join us to challenge your thinking, share ideas and shape the future of independent accountancy.

Key themes include:

- ◆ AI and the future of accountancy
- ◆ Scaling your firm for sustainable growth
- ◆ The move from compliance to advisory
- ◆ Cyber security and emerging business risks
- ◆ Leadership and the next generation of firm owners
